Abundant Taichung - New and Brighter Tourism

Taichung has a wealth of diverse cultural landscapes and has been lauded as one of the "World Top 100 Travel Destinations". The Gaomei Wetlands have been named by overseas websites as a place that everyone should "visit at least once in their lifetime". The renowned international travel guide Lonely Planet has listed Rainbow Village as one of the "Secret Marvels of the World". All of this demonstrates that Taichung City has become an international tourism city.

Taichung is the second largest city in Taiwan. In addition to the pleasant climate, there are unique local features worth experiencing everywhere, whether it's the cultural landscape around every corner of the city, the unique natural scenery of mountains and seas, or the original and creative food culture.

After taking on the role of city mayor, I began to promote the Abundant Taichung · New and Brighter Tourism plan to actively promote urban marketing. Currently, more than 7.35 million travelers stay in the city every year. The future potential is endless, because Taichung is much more "fun, delicious, good for shopping, nice to stay in, and photogenic" than everyone imagined!

This time, through the introductions of the trendiest online celebrities and bloggers, we will guide you to explore places that even long-time Taichung residents have never visited. As for the famous sightseeing spots in Taichung, we are certain that you will discover an even more amazing side of Taichung through the unique interpretations and perspectives offered by these travel experts and explorers!

New and Brighter Tourism - Transforming Taichung into a Tourism Capital!

Taichung City is the hub of transportation in Taiwan; the airport and seaport connect us to the major cities in Asia. When travelers come to Taichung, they can easily visit famous scenic spots, while enjoying gourmet cuisine and local traditional snacks. If you want to have an in-depth Taiwan tourism experience, the best place to start is Taichung!

In order to transform Taichung into a tourism capital, Taichung City Government's Department of Tourism has actively integrated resources to create local attractions, events and festivals, creative topics, etc., which have attracted a large number of tourists, both domestic and foreign. The city hosted 18 tourism events in 2019, attracting the participation of 10.09 million people, which was nearly 0.5 times more than that for the same period in 2018. We also attracted 7.81 million travelers to stay in Taichung, for a growth of 5.86% over the same period last year. We are continuing to attract visits from tourists, and helping to create beautiful travel experiences and impressions of Taichung.

This time around, we have invited internet celebrities to come visit Taichung. These different types of internet celebrities will bring different viewpoints and perspective, which will guide visitors to experience the natural scenery and cultural creativity of Taichung, so they can get to see the city's unique charm and vitality. We sincerely invite everyone to visit Taichung!

📷 We recommend lifting your mobile phone or camera up as high as possible. A high angle of view allows taking in more of the road surface, so that the entire S-curve of path can be more clearly seen. For portraits, stand in the sun, and wear a blue dress and straw hat; this can make an image like a scene from Alice in Wonderland, all dreamy and beautiful.

📷 There are round holes in the sphere, just like a spaceship from a science fiction film, adding a sense of futurism. We recommend sitting on the wall and using a wide-angle lens. If it happens to be raining, you will also be able to see reflections in the rainy. Use the water on the ground to capture the perfect picture of the entire baseball.
